## SUMMARY

I'm Steven Rey, a self-taught software developer, and open source contributor. Actually I'm the lead developer of CDPS (Club Deportivo de Puerto Sajonia), and Owner of [Bedenker Labs](#).

With a keen eye for innovation, I harness the power of technology to deliver solutions that not only save time but also generate tangible value. My passion lies in leveraging my expertise to provide exceptional service, ensuring that each project is tailored to meet the unique needs and goals of my clients.

## TECHNICAL SKILLS

**Development:** design and development of web systems in Django and Python, NextJS and MERN stack using SQL and NoSQL databases, front-end frameworks like Tailwind & Bootstrap, automate deployment in Vercel integration with Github, learning about testing and debugging tools.

**Operating Systems:** Advanced handling of Ubuntu and Windows, installation, configuration and maintenance of computer hardware and software. Continuous use of VPS (Virtual Private Servers) like DigitalOcean and AWS.

**Networking:** Installation and configuration of LAN, WAN and VLAN networks, security cameras, Mikrotik routers, managed switches and other network devices.
